FOR IMMEDIATE RELEASE:

## **IHMM Implements Website Enhancement**

Rockville, Maryland (June 30, 2011) - The IHMM website has been upgraded to provide a listing of professional development activities.

Holders of IHMM credentials are now able to see a listing of professional development activities at the IHMM website. This listing provides the date, activity, location, sponsor and link for more information about upcoming professional development. This listing can be viewed by selecting “resources (top right) – then professional development activities (left listing) at [www.ihmm.org](http://www.ihmm.org). While IHMM does not endorse any of these activities, announcing these activities will help current certificants know when and where potential professional development opportunities are occurring. Furthermore, sponsors wanting to list their activities can use a submittal form also available at [ihmm.org](http://ihmm.org).

“There are many professional development opportunities available to holders of IHMM credentials. This listing now available at [www.ihmm.org](http://www.ihmm.org) can streamline the search for these activities,” said IHMM Board Secretary Brenda Mahan.

### **About the Institute of Hazardous Materials Management**

For over 25 years the Institute of Hazardous Materials Management (IHMM), a not-for-profit organization founded in 1984, has been protecting the environment and the public’s health, safety, and security through the administration of credentials recognizing professionals who have demonstrated a high level of knowledge, expertise, and excellence in the management of hazardous materials.

Over 15,000 homeland security, environmental protection, engineering, health sciences, transportation, and public safety professionals have earned IHMM’s accredited Certified Hazardous Materials Manager (CHMM) credential. IHMM also administers the Certified Hazardous Materials Practitioner (CHMP) credential and the Hazardous Materials Manager-in-Training (HMMT) program.
