

**ANDREA P. SCHUESSLER**  
**Senior Manager; Safety, Health and Environment**  
**AstraZeneca**  
**Regional Operations, Americas Supply & Global Biologics**

A Certified Hazardous Materials Manager (CHMM) with more than 30 years' experience, Andrea earned a BS in Chemistry and Master's in Science Education. Her professional background includes compliance work in the chemical industry, government contracting with remediation and hazardous materials focus, and environmental consulting managing Safety, Health and Environment (SHE) and Quality programs. She has served terms on IHMM Board of Directors, IHMM Nominating Committee and IHMM Examination boards and is a Fellow of the Institute.

Andrea joined AstraZeneca in 2015 as Senior Manager, SHE at the Frederick Biologics Manufacturing Center and currently is Senior Manager, SHE for Americas Supply & Global Biologics Operations. Andrea supports 13 manufacturing and fill/finish sites in 7 countries providing overarching regional support for SHE and sustainability.

Previous roles included Senior Project Manager for BRAC decommissioning in the Washington Metro area of over 3 million square feet of research laboratory, hospital, mechanical and pathology museum spaces. Andrea was responsible for QA and compliance with all applicable regulatory requirements for defining strategy identifying chemical, biological, and radiological contamination. Andrea worked 20 years in a principal role as business owner and environmental consultant, focusing on analytical data validation and QA activities for laboratory, facility and program audits and inspections.
