

RESOURCES TO HELP YOU ADVANCE IN YOUR CAREER

- Developing and delivering the highest quality education and training programs serving the hazardous materials, dangerous goods, environment, health & safety communities of practice.
- Providing the strongest networking platform in the nation, **COLLABORATION**, to facilitate our communities of practice in discussing their professional challenges and exchanging information and ideas that benefit their future development.
- Sourcing conferences that allow opportunities for us to gather together, learn from one another, and enjoy each other's perspectives to enrich our experiences.
- Offering affinity programs that leverage our vast numbers and reach into incredible companies from around the world by providing value, reducing costs, and connecting our communities of practice with exclusive services.

Visit the **HMS' Education & Training** page to learn more, search approved courses, and view their respective **CMP** values.

RECERTIFYING YOUR IHMM CREDENTIAL

[IHMM.ORG](https://ihmm.org)

RECERTIFYING YOUR IHMM CREDENTIAL

Yes, you just earned your credential and recertification takes place in 5 years. You think you have plenty of time to worry about recertification later.

WRONG!

You worked hard and spent considerable resources to join a premier group of unique professionals by earning your credential. The last thing you want to end up doing is losing your hard-won distinction by failing to recertify your credential on-time.

SO, LET'S GET STARTED!

Founded in 1984, the Institute of Hazardous Materials Management® (IHMM®), is a not-for-profit organization. IHMM has been protecting the environment and the public's health, safety, and security through the creation of credentials recognizing professionals who have demonstrated a high level of knowledge, expertise, and excellence in the management of hazardous materials, dangerous goods transportation, environmental protection, health, and safety.

- ▶ Set up an MYIHMM account with a unique username and password. Keep that access active and make sure you maintain your own record with the information you entered into it current. That is your responsibility as an IHMM certificant.
- ▶ Recertification of your credential requires you to earn a minimum of 200 Certification Maintenance Points (CMPs) over the 5 years you have until you need to recertify.
- ▶ This simply means you will earn 100 CMPs for your employment and then you need to earn another minimum of 100 CMPs from a variety of authorized activities directly associated with your credential's blueprint.

Earning and Claiming Your CMPs

Go to: ihmm.org/credentials/#recertification

Open the document titled "Appendix A," and you will find a wide variety of ways that you can demonstrate your commitment to not only maintaining your credential but strengthening your professional standing as well.

RECERTIFICATION VIDEOS

When navigating to the recertification section of the IHMM website, also found on your specific credential's landing page, please note two instructional videos.

Recertification Video #1

Recertification Video #2

These videos provide you with step-by-step instructions, from logging into your MYIHMM account to how to start a recertification application to how to enter the CMPs you have earned.

▶ DO THIS STEP

As you earn CMPs, go and enter them into your recertification application. The system will allow you to always see where you are in earning your required CMPs. Then, as you near the time to submit a recertification application, you will be ready.
